• PROJECTS

Currently as a fresher I am making projects and making it live on the web , some of the web projects I have completed (Link on the heading):

MEALGRAM : A small and powerful web app to search an ingredient and dishes related with it, made with VanillaJs | API used :
<https://www.themealdb.com/>.

QuizWeb : A quiz web app with timer,made using VanillaJs

NotesMaker : A powerful notes making app with timestamp and local storage functionality , made using VanillaJs.

TodosApp : Todo-list app made using VanillaJs and currently working on more projects , going to make live soon.

LiveWeather : A web app with live search functionality made using ReactJs | API used : Weather API - OpenWeatherMap.
